Dave,  
On 428607-1, please have Sumter Co. verify and concur with the following (in red):

The project description is CR 476B from I-75 Ramps to CR 476W ? Our project limits are from I-75 to C-476. It is our intention to stop at the limited access R/W which is close to the terminus of the ramps. I believe both are correct one just is more detailed, sorry for any confusion!  
(The letter and what is in Work Program is different, just need verification before the WPA is processed.)

The allotted amount due to low bids for this project is \$718,577. The attached lap agreement indicates the available ARRA \$ is \$ 718,668.00 which is in agreement with the letter. The County will make up the difference which will be calculated by taking the bid amount less LAP \$.

(the Sumter Co letter of March 29, 2010 stated that 718,660 will be available thru Lap Agreement and that Sumter County would make up the difference) Since that time, we were short a few dollars in FSSL and FSSN funding.

I am trying to make sure that all details are clear so the WPA can process quickly and without question. Need this right away. Deadline approaching.

Dear Mr. Marsh:

Thank you for the Planning Office efforts redirecting available ARRA surplus funds that were realized from the C-476E and C-470N bidding process to the subject project. It is our understanding that the \$718,660 will be made available through a separate Local Assistance Project (LAP) agreement and Sumter County will be responsible to make up the difference between the total project construction costs for C-476B the LAP amount.

Thank you very much for the available funding. We greatly appreciate District 5's interest in assisting Sumter County on many fronts but specifically you and your staff.

Sincerely,

Bradley Arnold  
County Administrator
